

The screenshot displays the Cisco Packet Tracer application window. The top menu bar includes File, Edit, Options, View, Tools, Extensions, Window, and Help. Below the menu is a toolbar with various icons for creating and editing network components. The main workspace is divided into two tabs: Logical and Physical. The Logical tab is active, showing a network diagram with a PC (labeled 'PC PT PC3') connected to a switch (labeled '2960-24TT Switch0'). The connection is represented by a black line with a green star at the PC end and an orange dot at the switch end. The bottom status bar shows the time as 00:01:29, a play button icon, and the Realtime Simulation mode. The bottom taskbar of the operating system is also visible, showing icons for various applications and the system clock.
